

**Department: Programs and Services**  
**Section: Special Education**

The Annapolis Valley Regional School Board believes that the transportation of students with special needs must be done with care, sensitivity, and professionalism. It may also require specialized training for staff and/or the provision of specialized equipment and personnel.

Therefore, the Board directs staff to establish a process for identifying students who require specialized transportation services, and for providing that service so as to maximize safety and dignity for all participants.

Specifically:

- The Director of Programs and Services will be responsible for the implementation, monitoring and revision of the policy.
- The policy shall be reviewed annually.

**Board Approved:** January 9/02
